CLASSIFICATION SECRET

SECRET.

25X1 On 20 May, the north section of the Delius Kaserne was occupied by about 1,000 troops wearing red-bordered black epaulets with artillery, motor 25X1 transport and signal insignia. At about 2 p.m. on 13 May, about 30 soldiers armed with carbines and carrying practice targets left the installation toward Potsdam. About 10 soldiers received telephone instruction in the barracks yard. On 15 May, about 150 troops engaged in physical training and, on 18 May, about 100 troops entered the installation, coming from a cross-country run. Sedan entered the installation. 25X1 On 20 May, the Kavallerie Schule, Krampnitz, was occupied by about 400 troops wearing red-bordered black epaulets with tank, artillery or motor transport insignia. On 16 May, 14 driving school vehicles were seen en route from Krampnitz to Potsdam, and about 70 troops received field training and 20 troops practiced the throwing of hand grenades in the training area northwest of the installation. On 18 May, detachments entered the installation coming from the direction of Bullenwinkel and about 40 troops were seen at aiming practice in the terrain, while 80 troops received theoretical instruction. 9. On 15 May, the north section of the Delius Kaserne was occupied by an artillery unit wearing red-bordered black epaulets with artillery or motor transport insignia. On 10 May, 70 to 80 percent of the windows of the two barracks buildings on the road were lighted at dusk. On 7 and 12 May, about 30 soldiers received instruction on three 122-mm field guns at Bornstedter Feld opposite the barracks entrance. After the instruction, the guns were picked up by Diesel prime movers, which came from the barracks installation. On 11 May, about 40 soldiers armed with submachine guns entered the installation. Truck 25X1 entered the installation. On 15 May, the south section of the Delius Kaserne, the Hohenlohe Kaserne and the Ludendorff Kaserne were occupied only by guard details. On 11 May, three trucks were in front of the Hohenlohe 25X1 Kaserne 11. On 15 May, the Kriegsschule was occupied by about 2,000 officers and EM, organized into six battalions. On 6 May, three battalions left for an exercise, according to a local resident. On 10 May, two officers and 24 officer candidates wearing gold-bordered black epaulets and armed with carbines left the installation toward the firing range. Motor vehicles observed entering or 25X1 leaving the Kriegsschule 12. On 7 May, about 15 soldiers received instruction on three 76-mm field guns, at Bornstedter Feld in the vicinity of the Adolf Hitler Kaserne; 15 soldiers wearing red-bordered black epaulets with artillery insignia 25X1 marksmenship training with carbines in the vicinity of the Nedlitz Kaserne; about 40 soldiers wearing red-bordered black epaulets trained with rifles in front of the high lookout posts; and 8 trucks driving school 25X1 practices in the terrain. 13. On 3 May, the Adolf Hitler Kaserne was partially occupied by troops wearing red-bordered black epaulets with artillery insignia. About 80 percent of the 25X1 windows of one building and 30 to 40 percent of the windows of four other buildings were lighted at dusk. At 2 p.m. on 2 May, about 80 troops were falling in in the barracks area. and 50 to 60 officers engaged in physical 25X1 training. 25X1.

SECRET

25X1

25X1

SECRET/

25X1 14° 25X1 Between 1 and 3 May, billeting equipment was continually hauled away from the barracks installation in Golm. The barracks installation was occupied by a rear detail of 100 troops wearing black-bordered black epsulets with signal insignia. On 3 May, the rear detail had left, except for a small guard detail. All the officers dependents left the installation and the 25X1 infirmary was dissolved. only part of the units previously stationed in the installation were entrained; and that the unit of troops wearing black-bordered black epaulets moved to the 25X1 barracks installation in Wildpark-West, whereas the troops wearing blackbordered primson epaulets probably were entrained. It was rumored in Golm, that the installation would be occupied by KVP. 25X1 16. Beginning 15 April, the SSD school in the area of the barracks installation in Golm was unusually strictly guarded. Everybody passing the installation was being cortrolled. 25X1 1. Comment. The installations mentioned, except for the Adolf Hitler Kaserne, which is occupied as previously, are probably scheduled to be occupied by KVP and/or partially occupied by the Torgan cadre unit which 25X1 moved to Potsdam as early as early April. barracks installation in Golm occupied by KVP. 25X1 However, the transfer to Wildpark-West of the signal unit previously 25X1 stationed in Golm appears improbable 25X1 Indications are that this unit transferred to the barracks installation on Schumke Lake, Kummersdorf. 25X1 The Ruinenberg Kaserne was occupied by 400 to 600 presumably of signal units of the GOGF, as late as April. [ It is not impossible that these units were also quartered 25X1 in the Wuensdorf area. The occupation by a VP officer candidate school of the Leibgardehugaren Kaseme is known. 25X1 Commenta The occupation of the barracks installations in Nedlitz is 25X1 confirmed by this information. The entire 30th Gds Gun Arty Brig is stationed X1 in the north section of the Delius Kaserne; while the south section of the Delius Kaserne as well as the Ludendorff and Hohenlohe Kasernen quarter only 25X1 guard details of the two other brigades of the 34th Arty Div (US). The information in paragraph 6 is, therefore, only of
